“An oasis of beauty and calm in Bryanston”

It's a perfect retreat after a busy day or work or travel - always a warm welcome from Pat and the staff. The spacious property is delightfully and tastefully furnished with gorgeous Balinese furniture and artefacts, and beautifully maintained and equipped to the last detail, down to the bathrobes and dainty chocolates. Swimming pool, outdoor seating area, delightful gardens and secure parking outside; gorgeous lounge and library inside. The dining is superb - most obliging chef providing delicious and ample meals in an elegant dining room, always with thoughtful extra condiments, treats and choice of beverage readily available without having to ask. The bedrooms are superbly and luxuriously equipped, with large fully tiled en-suite bathrooms. Everything spotlessly clean. I would never hesitate to return to Annabels for overnight trips to Joburg.

Annabel & Pat are just wonderful hosts and make you feel part of the family as soon as you arrive there. Nothing is too much effort for them.

The rooms and the Guest House are so tastefully decorated and everything has been so well thought out and considered for the comfort of the guests.

Thank you to you both for making our Mom's 70th birthday a celebration she (or us) will not forget.

We will certainly be back - Annabel's is the place to stay!!!!

I had to stay over for a few days on business and really enjoyed my stay. The hosts were very friendly and accommodating and the food was great. It's possible to eat dinner and the food at breakfast and dinner was tasty and abundant. It's located very close to business areas in Sandton and Bryanston, which helped a lot.

Thankyou Jacobus E

Rehab after op”

I stayed at Annabel's of Bryanston with my husband prior to and following his double knee joint replacement. Our initial choice for this guest house was its close proximity to Sandton Mediclinic (1.8km) and Bryanston Shopping Centre (5 min walk), which has a supermarket and a Woolworths Food Mart. We also wanted a more personalised service, rather than be in a hotel with a hundred or more guests.

This guest house is perfect for a medical rehab. It is safe and secure. There are paved walkways from the car park to the bedroom, which are suitable for a wheelchair or walking on crutches. There is also a long paved patio outside the room, which can assist with rehab on crutches. The rooms are spacious and have a walk in wardrobe to keep luggage out of the way. While the bath is sunken, my husband had no problem stepping in and out of it. The rooms have an iron plus board, fridge, tea/coffee facilities, and hair dryer. There is a well equipped guest kitchen and laundry, which is great for guests on long stay.

The owners. Annabel and Pat Allen are friendly, hospitable people who are there to help. We would have no hesitation in recommending this guest house to anyone, but in particular, if you are visiting Jo'Burg for medical reasons, this is a great place to stay.

" We stayed at Annabel's of Bryanston when we came to Johannesburg, and can thoroughly recommend it to other travellers. Accommodation is provided in first-class surroundings in a secure location. A wonderful gourmet breakfast is served each morning, and the whole experience is of total luxury.

Our hosts, Annabel and Pat, made us feel a part of the family, and we chose to stay there again on our last night in South Africa.

Don't miss it!"

"I have been a regular "commuter" for the past few years between Cape Town and Johannesburg.

As this life-style is extremely demanding I required a comfortable, reliable consistent "2nd home". I began staying at Annabel's back in 1999. Not only did they accommodate me with a really innovative financial deal, but the relaxed and friendly environment created by Annabel and her Staff has made me so comfortable that I haven't given a thought to looking elsewhere.

If you're looking for a home from home, you needn't look any further than Annabel's !!"

CAMPBELL PETER.
